

### **CALL FOR STUDENTS TO REGISTER THEIR DETAILS ON MEA'S MADAD PORTAL**

The Ministry of External Affairs has initiated the process of Registration of Indian students and a dedicated Students Registration Module has been placed within the Ministry's MADAD portal (The Consular Services Management System) i.e. <http://www.madad.gov.in>

The registration is an attempt to compile data about Indian Students pursuing higher education in various foreign countries and to advise them in the hours of need. The data so compiled will provide useful insights on the pattern of migration of Indian students, courses they are registering for and so on.

The entry of details is voluntary. The MEA has stated that the module will be further expanded to include country specific advisories, links carrying information on accredited educational institutions in various countries.
